TheraBrite Review– The Best Alternative For Safe Teeth Whitening At Home

A safe and cheaper alternative to whitening procedures you can get done at the dentists' office, [TheraBrite](#) is a relatively new product that is getting a lot of attention. Able to produce results in as little as one week, this unique system utilizes many of the same ingredients as other system, but provides greater results. Below you will find a review of this product with all of the information that you need, in order to know if it is right for you.

Product Details and Contents

The ThereBrite system is a complete teeth whitening procedure that contains everything you need to get whiter teeth fast. The whitening gel comes in the three 3ml syringes which are included. This gel contains 21% carbamide peroxide which is a recommended safe amount, which will drastically reduce the teeth sensitivity that can be a result of other products.

In your kit you will also receive 3 thermoplastic mouth trays which can be made to mold your mouth. The gel is then added to the trays and you leave the product on for 15-20 minutes every day. To round out your kit, you will also receive a small brush for better application, and three rolls of ZOX breath fresheners.

Advantages

There are many advantages to the [TheraBrite whitening system](#). One of the best is that it has a smaller percentage of carbamide peroxide and contains a non-glycerin formula so that you do not experience the extreme teeth sensitivity that is usual with teeth whitening products. The price is also much less than you would pay for professional whitening, but results can be seen quickly in as little as a week.

Disadvantages

One of the main disadvantages of the TheraBrite system is that it does still have the ability to cause slight sensitivity in the teeth. It can also discolor your gums slightly, but these effects wear off within a few hours of use.

Price

For the complete kit, the cost is \$54.00. This kit will carry you through a month's worth of use, and the effects of the whitening can be seen for up to 6-12 months. That makes the TheraBrite solution a good alternative for those who want whiter teeth without the high cost.

Who Would Benefit Most From This Product?

If you are looking for a fast acting whitening system that can serve as an alternative to dentist's treatments, then the TheraBrite system would be perfect for you. Anyone who wants a safe and natural product that does not contain harmful animal by products can use this product and breathe easy. For whiter teeth in a faster amount of time, check out the TheraBrite teeth whitening system and you will not be sorry.
